github.com/Keshan-D-Adhikari

A motivated undergraduate student who has successfully completed the 3rd year of the BSc (Hons) in Information Technology program at Horizon Campus, with a strong interest in software engineering and AI development. Experienced in Python programming, machine learning, and data manipulation, with a deep passion for building responsible and ethical AI solutions. Demonstrated leadership and teamwork skills through active participation in university organizations.

SKILLS

- Programming Languages: Python, Java, SQL, JavaScript ,Flutter,React , C, HTML, CSS, Frameworks & Tools
- AI/ML Tools & Frameworks: scikit-learn, TensorFlow (beginner), Pandas, NumPy
- Strategic ThinkingPublic Speaking
- Teamwork
- Leadership
- Critical Thinking

PROJECT

SmartWaste Pro – IoT-Based Waste Management System

- Designed a smart waste management system using ESP32 with IR, moisture, and load-cell sensors for real-time waste level detection and automatic segregation. Integrated Firebase for cloud updates and n8n workflows for automated alerts and recycling marketplace functions.
- Tech Stack: flutter,python,ESP32, IR Sensors, Load Cell, Moisture Sensor, Firebase, n8n Automation, IoT, Cloud Integration.

CI/CD Pipeline Project – FoodEase Web Application

- Built a food ordering app with CI/CD automation using GitHub Actions, enabling automated testing, security scanning, and multi-environment deployments (dev, staging, prod).
- Implemented blue-green deployment, CDN edge caching, and security gates (SAST, DAST, SCA) for reliability and performance.
- Tech Stack: React.js, Firebase (Auth, Firestore, Functions, Hosting), Vercel, Tailwind CSS, GitHub Actions.

Wine Quality Prediction App

- Developed an interactive Streamlit web app to predict wine quality using a trained ML model.
- Integrated data exploration, visualizations, real-time predictions, and model evaluation in one platform.
- Achieved high accuracy using scikit-learn models with feature scaling and classification metrics.
- Tech Stack: Python, Streamlit, scikit-learn, Pandas, Seaborn, Matplotlib.

EDUCATION

Horizon Campus 2022
Bachelor of Information Technology (Readng)

Sir John Kothalawala Central College Dodamgaslanda 2017 - 2019
Advanced Level

Gonigoda maha vidyalaya 2006 - 2016
Ordinary Level

VOLUNTEER EXPERIEN

Vice President 2025 - 2026
Horizon Campus Sports Council

Graphic Designer 2024 - 2025
Horizon Campus Sport Council

CERTIFICATION

- Udemy - 100 Days of Code: The Complete Python Pro Bootcamp
- Udemy - Selenium WebDriver 2025: Automation Testing & CI/CD
- University of Moratuwa - Python for Beginners E-Certificate
- SLIIT - AI/ML Engineer - Stage 1
- Kaggle - Pandas Course
